NEWS / FOR IMMEDIATE RELEASE

Society for Participatory Medicine Adds Pulse Inframe’s Digital Tool-Set and Supercharges Corporate Member Benefit Offering.

Patient Portals, Evidence-Based Patient Reported Outcome Measures, Health Registries, Real Time Analytics, & Data Visualization Capabilities Offering Augments Member Benefit

(Boston, Mass. and London, Ont., Oct 25, 2017) Senior executives from the Society for Participatory Medicine, the preeminent organization in promoting true partnerships between patients and healthcare professionals, and Pulse Inframe Inc., a leading cloud-based health care data insights company, announced a partnership to promote the use of patient portals, patient reported outcomes, and registries to enable the open exchange of information between patients and caregivers.

“A growing body of research is showing that engaged and informed patients have better outcomes and reduced costs,” said Dr. Danny Sands, a co-founder and board chair of the Society for Participatory Medicine. The Society is a catalyst for positive change in healthcare, and is thrilled to offer this new member benefit providing specialized pricing and domain expertise on an essential digital toolset that facilitates dialogue, enables needed ecosystems, and improves human health. I am delighted with our new relationship with Pulse Inframe.”

“The Society for Participatory Medicine’s activities are routed in community, conversation, advocacy, research and education. The Society’s mission and methods are fully aligned with Pulse Inframe’s objectives. We are committed to serving the Society’s growing membership. Together, we can empower the voice of the patient and bring about a stronger, collaborative and learning healthcare system,” said Dr. Femida Gwadry-Sridhar, Founder and CEO, Pulse

M O R E

Infotrame. “Through technology-enabled ecosystems, research, analysis, reporting and collaboration globally become easier, efficient and much less labor intensive.”

About the Society for Participatory Medicine

Created by a passionate group of professionals and patients with a vision to start a movement to transform the culture of healthcare, **The Society for Participatory Medicine** is a 501(c)(3) not-for-profit membership organization devoted to promoting the concept of participatory medicine, a movement in which activated empowered patients engage as drivers of their health, and in which providers encourage and collaborate with them as full partners in their care. SPM does this by stimulating dialogue, influencing policy, advocating research, and educating patients, health care professionals, and others. SPM members include stakeholders from across the health care continuum.
